## **DETAILED ACTION**

The previous rejection under 35 USC 102(e) by Horita is hereby withdrawn . A new rejection follows.

### ***Election/Restrictions***

Claims 5-7, 13-15, 21-23 and 28 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species of the invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 7/30/08.

### ***Claim Objections***

Claim 1 is objected to because of the following informalities: There are 2 sentences in the claim. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 4, 8-12, 16-20, 24, 25 and 30 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Behr et al.

The patent to Behr et al. '944 discloses a navigational device that uses a origin and destination that inherently have diagonal vertices that lie in a rectangular area that covers the route, as described in column 4, lines 30-50. See both the abstract and

claims of the patent for the transmitting of data to the mobile device 14 of data not stored in the mobile device. The base unit 12 includes a server as described in column 5, lines 55-65.
